

# THE AVON VALLEY SCHOOL & PERFORMING ARTS COLLEGE

26th September 2025

Dear Parent/Carer,

We are excited to launch Sparx Maths with our Year 10 students this year.

## What is Sparx Maths?

Sparx Maths is an online platform that provides personalised maths practice. It is designed as a homework platform, adapting to each student's level and offering instant feedback to strengthen understanding and build confidence. However, we will not be using Sparx Maths as a homework platform in Year 10.

## How will Year 10 use Sparx?

For Year 10, Sparx will be used during fortnightly computer-based revision lessons in school. This means your child will have dedicated time to work on personalised revision activities in a structured environment. They will not be required to complete Sparx as additional homework at home.

## Why might I receive emails from Sparx?

Because Sparx is designed as a homework platform, the automated emails you receive may sometimes refer to "homework." Please don't worry — for Year 10, this simply reflects the work your child has completed in their revision lessons at school.

## Why are we introducing Sparx in Year 10?

We believe Sparx Maths will help Year 10 students to:

- strengthen their knowledge through regular, personalised practice,
- develop independence and confidence in maths,
- receive immediate feedback to support progress, and
- prepare more effectively for their GCSEs.

We look forward to seeing the positive impact this will have on students' confidence and achievement in maths.

If you have any questions about Sparx Maths or how it will be used with Year 10, please don't hesitate to contact us.

Yours faithfully,

Mr Patton  
Assistant Faculty Leader of Maths

Newbold Road, Rugby, Warwickshire CV21 1EH
